## TESTIMONIALS

*"For me this program was not just another training, it was personal and professional growth. I left with a deeper awareness of myself and a stronger ability to lead with clarity and purpose. If you're looking for an experience that will challenge you and change the way you see yourself and people around you plus giving you practical tools you can use to strengthen your leadership... I would definitely encourage you to consider this program."*

**Lee Stoffel - City of Rosemount**

*"This program is a great hands-on experience with other learners and leaders. You will gain a deeper understanding of how different perspectives based on sex, race, cultural background and more, informs our automatic reactions to work and social cues. The program will make you a more well-rounded person for life and an asset to any company's culture."*

**Garrett Roach**

*"This program was an instrumental piece of my personal growth as a leader and organizational contributor. I learned how to identify unconscious bias, misguided perspectives and multicultural barriers that directly impact the workplace. The mentorship component, along with the courses, helped me to recognize how I can encourage a safe, welcoming and inclusive environment through communication, celebrating differences and prioritizing acceptance."*
